Coverage provided under this Endorsement does not increase any limit of liability in your policy.

### DEFINITIONS

With respect to the coverage provided by this Endorsement, the following definitions are added:

#### 1. "Covered Service Line"

- a. "Covered service line" means exterior underground piping and wiring, including permanent connections, valves or attached devices providing one of the following services to your premises:

  - (6) Waste disposal; or
  - (7) Water.
- b. A "covered service line" must be owned by you or you must be responsible for its repair or replacement as required by law, regulation or service agreement. Should repair or replacement be your responsibility, a "covered service line" ends at the precise location where your responsibility for such repair or replacement ends. However, in no event will a "covered service line" extend beyond the point of connection to the main service or utility line.
- c. "Covered service line" does not include:
  - (1) Piping or wiring that is not connected and ready for use;
  - (2) That part of piping or wiring that runs through or under a body of water, including but not limited to a swimming pool, pond or lake;
