THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

The following additional coverage is added to the Property section of your policy.

If **your** Declaration Page shows **you** have this coverage, **we** will pay up to the **amount of insurance** shown for Service Line Coverage for loss, damage or expense arising from any **one service line failure**. Coverage applies only at the location shown on **your** Declaration Page but coverage does not apply while **your premises is under construction or vacant**.

This coverage does not increase any limit of liability provided under Section I of this policy.

1. Definitions

With respect to the coverage provided by this optional coverage, the following definitions are added:

Covered Service Line means exterior underground piping and wiring, including permanent connections, valves or attached devices providing one of the following services to **your premises**:

- a) communications, including cable transmission, data transmission, internet access and telecommunications;
- b) compressed air;
- c) drainage;
- d) electrical power;
- e) heating, including geothermal, natural gas, propane and steam;
- f) waste disposal; or
- g) water.

A **covered service line** must be owned by **you** or **you** must be responsible for its repair or replacement as required by law, regulation or service agreement. Should repair or replacement be **your** responsibility, a **covered service line** ends at the precise location where **your** responsibility for such repair or replacement ends. However, in no event will a **covered service line** extend beyond the point of connection to the main service or utility line.

Covered service line does not include:

- a) piping or wiring that is not connected and ready for use;
- b) that part of piping or wiring that runs through or under a body of water, including but not limited to a swimming pool, pond or lake;
- c) that part of piping or wiring that runs under the **dwelling** or other structure. However, this clause c) shall not apply to piping or wiring that runs under:
 - (i) a driveway or walkway;
 - (ii) a structure, such as a deck raised sufficiently from the ground that such piping or wiring can be accessed without damaging or dismantling any structure; or
- d) sprinkler system pipes.

Service Line Coverage

- b) landslide, mudslide or mudflow;
- c) subsidence or sinkhole collapse;
- d) tsunami or volcanic eruption; or
- e) any other naturally occurring **earth movement** including earth sinking, rising or shifting.

One service line failure means if an initial **service line failure** causes other **service line failures**, all will be considered **one service line failure**. All **service line failures** that are the result of the same event will be considered **one service line failure**.

Service Line Failure means a leak, break, tear, rupture, collapse or electrical arcing of a **covered service line** not otherwise excluded by this coverage. A **service line failure** may be caused by, but is not limited to, the following perils:

- a) wear and tear, marring, deterioration or hidden decay;
- b) rust or other corrosion;
- c) mechanical breakdown, latent defect or inherent vice;
- d) weight of vehicles, equipment, animals or people;
- e) vermin, insects, rodents or other animals;
- f) artificially generated electrical current;
- g) freezing or frost heave;
- h) external force from a shovel, backhoe or other form of excavation; or
- i) tree or other root invasion.

Service line failure does not include blockage, sag or low pressure of a **covered service line** when there is no physical damage to the **covered service line**.

The most **we** will pay under this Service Line Coverage for loss, damage or expense during the policy period, arising from any **one service line failure** to any **covered service line** is as follows:

- b) \$2,500 if **your dwelling** is 50 years old or older. However, if the damaged **covered service line** was installed or replaced in its entirety within 50 years of the **service line failure**, the limit shown in a) above will apply.

The maximum limit per occurrence under this endorsement is \$10,000 regardless of whether a single **covered service line** or multiple **covered service lines** are damaged by **one service line failure**.

Deductible

We will pay only that part of the total payable loss, arising from any **one service line failure**, that exceeds the Service Line deductible shown on **your** Declaration Page, subject to the applicable Limit of Liability in this Service Line Coverage.

Environmental, Safety and Efficiency Improvements

If a **covered service line** requires replacement due to a **service line failure**, **we** will pay **your** additional cost to replace with materials that are better for the environment, safer for people, or more energy or water efficient than the materials being replaced.

However, **we** will not pay to increase the size or capacity of the materials and **we** will not pay more than one hundred and fifty (150) percent of what the cost would have been to replace with similar kind and quality. This condition does not increase the Limit of Liability that applies to this Service Line Coverage.

Loss Settlement

Losses under this Service Line Coverage will be settled as follows:

Our payment for damaged **covered service line** will be the lessor of:

- a) the applicable Limit of Liability;
- b) the cost to repair the damaged **covered service line**;
- c) the cost to replace the damaged **covered service line** with similar kind, quality and capacity on the same **premises**; or
- d) the necessary amount actually spent to repair or replace the damaged **covered service line**.

Except as described in Environmental, Safety and Efficiency Improvements above, **you** are responsible for the extra cost of replacing damaged **covered service line** with materials of a better kind, quality or of a different size or capacity.

You are responsible for the extra cost to alter or relocate **covered service line**, unless such alteration or relocation is required by law or ordinance.

You are responsible for any extra cost incurred to remove, replace or repair any structure when such cost is incurred to access the **covered service line**.
